EDUCATION

SMK Islamic Development Network (IDN) Boarding School | 2022 - Present

ACHIEVEMENTS

General Champion in Junior High School SMPIT Al Hadiid | June 2022
SMK IDN Boarding School Pamijahan Best Project Awwards 1st Winner | 1st Semester 2023
OPSI Olympics Gold Medal Winner Informatics Lesson | 2023
NOSEC Olympics Gold Medal Winner Informatics Lesson | 2023
KSB Olympics Gold Medal Winner Informatics & English Lesson | 2023

LANGUAGES

English | Intermediate level
Bahasa Indonesia | Native language

SKILLS

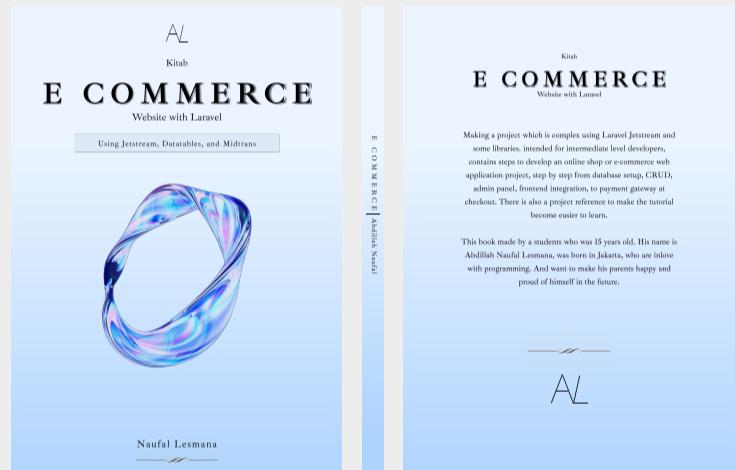

Google Play Console	Create Application Internal Testing Closed Testing Production to Google Play Store	CSS Frameworks - Bootstrap CSS, Tailwind CSS.
Front End Web Development	HTML - Paragraph, Heading, Unordered and Ordered List, Image, Preformatted Text, and Figure, Anchor, Line Break, Special Character, Canvas, Running Text. Semantic HTML - Header, Footer, Main, Nav, Articles, Section, Aside. Generic Element - Div, Span. Table - Colspan, Rowspan. Form - Input, Textarea, Label, Submit Data. Google Maps, File Download. CSS - Attach Styling on HTML - Internal CSS, External CSS, Inline CSS. Selector - Universal Selector, Type Selector, ID Selector, Class Selector, Attribute Selector, Combinators Selector, Pseudo-class & element Selector. Styling - Font, Text, Colour, Opacity, Box Model (Border, Sizing, Overflow, Margin, Padding), Box Shadow, Rounded Corner, Float, Custom Scrollbar, Modal. Responsive Layout - Grid, Flexbox, Specific Style with Media Query.	CSS Libraries - Daisy UI, Tailwind UI, Flowbite. Javascript - Fundamental - Variable, Data Type, Operator, If Else, Switch Case, Loop, Function. Data Structure - Object, Array, Map, Set. Object Oriented Programming - Constructor, Property, Method, Inheritance, Overriding. Node Package Manager - Installing & Using Package using NPM. Browser Object Model (BOM) - Alert, Prompt, Console. Document Object Model (DOM) - Get Element, Create Element, Edit Element HTML. Event - Windows Event, Form Event, Input Event, Keyboard Event, Mouse Event, DOMContentLoaded, Add Event Listener. Web Storage - Local & Session Storage, Create Object, Set Item, Get Item, Json Stringify. JS Frameworks - Vue JS - Vue CLI, Plugins, Dependencies, Routing, Components, Templating, Get, Send, and Delete Live Data from API. JS Libraries - Axios, Splide JS, Animate On Scroll, Email JS, CKEditor, Json Server. Other Platforms - Google Sites, Wordpress.

Back End Web Development

PHP	- Variable, Constant, Data Type, Operator, Expression, Statement. Control Flow - If Else, Switch Case. Looping - For Loop, While Loop, Do While Loop, Break & Continue, Foreach. Function - Function Argument, Return Value, Variable Function. Object Oriented Programming - Class, Object, Property & Method, Visibility, Static, Constant, Constructor, Encapsulation, Inheritance, Overriding, Abstract Class & Method, Interface.	Mobile Development	Android	- Activity Lifecycle, Activity, Fragment, Adapter, View Model, Data Binding, Intent, Permissions, Retrofit, Get API Live Data, Api Client & Service, Material Design, Plugin, Dependency, Splash Screen, Intent Dial, Intent Email.
	Framework PHP - Laravel - MVC Concept, Routing, Middleware, Controller, Request, Model, Eloquent ORM, Storage, Blade Templating, Laravel Authentication(Fortify, Breeze, Jetstream), Authorization, Validation, Error Handling, Custom Error Page, Testing, Deployment, Hosting. Additional Library - Download pdf, Datatables, CK Editor.			Languages - Kotlin - Kotlin for Android, Data Type, Null Safe, Operators, Control Flow, Data Class, Collections, Lambda, Object Oriented Programming, Object, Class, Property & Method, Constructor, Interface, Encapsulation, Inheritance, Kotlin Generic.
	API - Postman API - Get, Post, Patch, Delete data.			Layout - XML - Linear Layout, Constraint Layout, Nested Scroll View, Navigation Drawer, Date Picker, Dialog, Guideline, Recycle View, Tab Layout, Card.
	Database Management System MySQL - MySQL Query, Managing Database, Table, Row, Column, Where Clause, Primary Key, Auto Increment, Relationship.			Flutter - Pub Package Manager, Stateless & Stateful Widget, Scaffold, Container, Padding, Center, Row & Column, Button, Input, Image, Font, List View, Expanded & Flexible, Navigation.
	Git - Initialization, Commit, Pushing Commit into Repository, Remote Control, Pulling Commit.			Language Dart - Dart for Flutter, Variable, Data Type, Function, Operation, Sub String, Control Flow, Loop, Object Oriented Programming, Class, Property & Method, Constructor, Cascade Notation, Inheritance, Abstract, Mixin.
Git & Github	Github - Repository, Contribution, Pull Request, Merging, Branch, Clone, Fork, Issues, MIT License, Gh Pages Deployment.	Graphic Design	Figma	- UI UX Design, Colour Palette, Prototype, Slice, Microblog, Infographic, Mockup.
		Online Deployment & Hosting	Gh Pages	- Online Deployment Github Repository
			Netlify	- Online Deployment Static Website
			Domain Nesia	- Online Deployment & Hosting, Domain, Git Version Control.
